

K-LOVE radio provides uplifting, commercial free, family oriented radio to the Phx Metro area. The impact of displacing this type of station would be significant as it's the only commercial free station I'm aware of, I'm a financial contributor to K-LOVE because I CHOOSE to listen to commercial free Christian radio. K-LOVE is a station in which you never have to worry about the content of the talk, there is never cussing or jokes at the expense of women or minorities. The music is rated "G" for general audience, no parental guidance needed. The loss of this station would have a huge impact on the community due to the reasons above. Please consider the ramifications of displacing the FM translator services, hundreds of thousands of listeners tune into K-Love over these stations. Thank you for the opportunity to comment.
